

Year 4 Weekly Learning Reflections

Week Beginning: 04.9.23

Class Victory

Happy Friday! What a busy first week it has been and it feels like it has flown by but also that we have been back for much longer than a week! The children have settled back in really well and are ready and eager to challenge themselves with the Year 4 curriculum.

We have focused this week on team-building, getting to know each other and recapping our learning from last year. The children have tended to stick to their friendship groups but when asked to work with others, they have shown great co-operation and collaboration skills. This has been particularly evident when making our class charter and their egg parachutes!

The children have also begun our PE for this half-term, focusing on Basketball and the fundamental skills required for a range of sports. They have built on last year's learning and it is pleasing to see many of them remembering the skills to dribble successfully. In PSHE, we have explored 'Me and My Relationships' with the children looking at how to support someone who is worried about different things.

★ ★ ★ STARS OF THE WEEK ★ ★ ★

Pupil Star of the Week - ★ Reeva ★

Reeva was nominated for her hard work ethic and for setting a good example to others. She has shown good effort to be the best of herself and has worked hard across the range of induction activities we have completed. Well done Reeva, keep it up!

Teacher Star of the Week - ★ Arla ★

Arla has had a fantastic first week back and has impressed me with her positive attitude and her kind and supportive nature. She has welcomed the new children to the school with open arms and has gone out her way to make them feel happy and included. You have set a fine example to the rest of the class Arla, what a superb start to Year 4!

Well done to our stars.
