

Weekly Learning Reflections

Good afternoon class Astute & families!

I hope you all have had a lovely Christmas break and New Year 😊

Class Astute have settled in well this week, slotting straight back into school life and routines.

In maths, we have started our new unit on geometry and have been looking at 2D and 3D shape. We quickly became familiar of the properties of both 3D and 2D shape, such as learning about faces, vertices, edges and so on. This helped us to recognise each shape and also construct them using Polydron. Next week, we shall be learning about sizes of angles and different types of line so that we can draw shape confidently and accurately.

In English this week, we have started our letter writing topic. So far, we have deconstructed a letter for its features, explored paragraphs and learned the differences of formal and non-formal language and tone. Next week we will plan our letters in preparation to write them.

And now for stars of the week!

Teacher star goes to Bella for having an amazing attitude and focus in her learning this week. Bella has come back with a spring in confidence. Keep it up Bella! Well done.

Class star of the week goes to Jude for being a kind friend and a supportive classmate. Jude is a very successful collaborator and will always make sure he can offer help to others. Well done Jude!

I hope you have a wonderful weekend 😊

Miss Lamonte
