

Weekly Learning Reflections

Week Beginning:

Happy Friday 😊

We have come to the end of the first week of Year 3 and it has been a busy one.

There is a lot to learn when starting Junior School. The children have to get to know the routines, expectations, learning values, systems and so much more. The amazing members of Radiant class have done so with enthusiasm and manners that I am so impressed with. It has been great to get to know them and see which aspects of Juniors they are looking forward to and which they are a little worried about.

These weekly updates will give you a small insight of what we have been up to in the week but also to inform you of our Stars of the Week. Each Friday the children will nominate and choose a Class Star. This will be a member of the class that believe has shown our EPIC learning values skills throughout the week. The class teacher will also select someone to be the Teacher's Star for EPIC reasons also. A tricky choice for all, especially on the first week back but without further ado...

★ ★ ★ STARS OF THE WEEK ★ ★ ★

Pupil Star of the Week - ★ Mia ★

The children chose Mia as their super star this week as they identified her hard working attitude, beautiful presentation and ability to try her best in all aspects of Junior School life.

Teacher Star of the Week - ★ Enya ★

It has been lovely to see all children to become more confident throughout the week however, Enya has shone with a huge improvement. She comes into class with a smile on her face and has worked hard no matter what we are up too.

Well done to our stars.

★ ★ ★

Hope that you all have a lovely weekend,

Mrs Mori 😊
